The Universal Law of Cause and Effect, one of the 7 Universal Laws, was practiced by Alkebulan/African Civilizations before organized religion including Judaism. **The Universal Law of Cause and Effect** is also known as Karma, Laws of Consequences, Reciprocity, Compensation and Newton's 3rd Law of Motion. **The Universal Law of Cause and Effect** is inherently embedded in saying such as *you reap what you sow* and *what goes around comes around*. **The Universal Law of Cause and Effect** is the foundation of the Golden rule, which is fundamental in all major religions.

Presenting THE UNIVERSAL LAW OF CAUSE AND EFFECT

'For Every Cause, there is an effect and every effect has a cause'

You live the effects of your life. The cause of the effects in your life happened in the past. How you choose to operate in the present effects showing up in your life, will be the cause for the effects in the future, whether it's the future minute, day, year, etc. If you choose to focus on the past, then you will keep living its effects in the present and future. In essence, the three Dimensions of the Past, Present, and Future exist simultaneously.

You choose in which Dimension you exist. ~QUEEN MIATA
